PROFESSIONAL SUMMARY

Java Backend Developer with hands-on experience building scalable REST APIs using Spring Boot, MySQL, and JPA/Hibernate. Transitioned from Civil Engineering to software development through self-directed learning and intensive project work, demonstrating strong initiative and problem-solving ability. Skilled in layered architecture, DTO patterns, validation, and relational database design.

TECHNICAL SKILLS

- **Languages:** Java, SQL, Python(Basic)
 - **Backend:** Spring Boot, Spring MVC, REST API Development, Spring Data JPA, Hibernate
 - **Database:** MySQL, JDBC, Relational Schema Design
 - **Tools:** Git, GitHub, Postman
 - **Concepts:** OOP, MVC, Layered Architecture, DTO Pattern, Exception Handling, SDLC, Software Testing
 - **Frontend:** HTML, CSS, JSP
-

PROJECTS

Employee Management System API

Spring Boot | MySQL | REST APIs | JPA/Hibernate

🔗 GitHub: <https://github.com/Sheshu618-naga/employee-management-system-api>

- Designed and built a production-ready REST API with full CRUD operations, department/salary filtering, pagination, and sorting using Spring Data JPA.
 - Applied DTO pattern to decouple entity from API response, preventing sensitive field exposure to clients.
 - Enforced clean separation of concerns via Controller → Service → Repository layered architecture.
 - Implemented Jakarta Validation and custom exception classes for reliable, predictable API error responses.
 - Tested and validated all REST API endpoints using Postman for reliable request and response verification.
-

FoodFly – Online Food Ordering System

Java | Servlets | JSP | JDBC | MySQL

- Built backend modules for restaurant listing, menu management, and cart functionality using Java Servlets and JDBC.
 - Designed normalized relational schema managing users, orders, and menu data following MVC architecture.
 - Implemented end-to-end input validation and exception handling across the full ordering flow.
 - Prevented SQL injection attacks across all database operations using PreparedStatement for secure query execution.
-

EDUCATION

B.Tech – Civil Engineering | 2020 – 2024

Anantha Lakshmi Institute of Technology and Sciences, Anantapur | **69.2%**

Board of Intermediate Education (MPC) | 2018 – 2020

Sri Chaitanya Junior College | **68.4%**

Board of Secondary Education (SSC) | 2018

Montessori Smart EM High School | **90%**

CERTIFICATIONS

- Java Full Stack Development – Tap Academy
